# Target B2B lists

**Through the Creditinfo Target self-service, it is possible to easily create various sales and marketing lists, enhance Your custom list with selected data, and order international lists of Latvian, Lithuanian or Finnish companies.**

Creditinfo Target business list tool is available at https://target.creditinfo.ee

## Creditinfo Target lists are an effective tool if You want to:

- Find new customers;
- Discover new sales- or marketing contacts;
- Analyze Your competitors or customers;
- Receive information about the credit risk of Your customer portfolio;
- Update Your customer-base data.

## Why use the Creditinfo Target?

- Compiling lists is a faster way than searching for information on the web;
- The created list can be received immediately;
- The issued data is up-to-date and of high quality;
- Received data is easy to process (sort, filter);

The data is issued in .xlsx or .csv format, where You can decide for yourself which information You want to see in the issued list. To download the created list, You will be sent an e-mail with the relevant content.

**Through the Creditinfo Target, it is possible to place an order both as an anonymous user and as a contractual customer.**

**Advantages of a contractual customer:**

- Data from the Payment Default Register can be used when compiling and supplementing Your list.
- Created lists can be re-downloaded from the order archive at any time.
